CUET UG 2023 tips from 100 percentilers to ace the exam (31st July 2023)

SUHANI JAIN

(2023 BATCH)

DPS HYDERABAD

(100 percentile marks in English, accountancy, business studies, and economics)

1. For any competitive exam, a smart preparation strategy combined with hard work is the key to success. I would suggest that aspirants streamline their focus on NCERT and clear their concepts as it would help them in both board exams and CUET.

2. Accuracy and timing play a determinant role in scoring well, which can be achieved through the thorough practice of MCQ-type questions from different reference materials. Practising mock tests is extremely important.

3. Coaching also helped me to clear my doubts. I had enrolled in Career Launcher to prepare for my CUET entrance exam. CL provided us with chapter-wise as well as all-India subject-wise mock tests that helped me gain a real understanding of how the exam is conducted, what the user interface is, and what should be my time management technique.

CL faculty as well as my school teachers from DPS Hyderabad assisted me throughout my journey by clearing my doubts and recommending preparation strategies.
