*I, Sharath Chandra from Siri Foundation got the opportunity to interact with the Senior secondary students of DPS Hyderabad on 25th August 2022. We were invited by the Entrepreneurship Club students to make Eco Friendly clay Ganesha. It was really good to see students dreaming of greener future and working towards it. Appreciate the Principal of DPS for encouraging children to carry the club activity and promoting their ideas. Wishing each and every young entrepreneur a very bright future. May they continue to work towards environmental issues and bring them closer to greater understanding of Environmental issues. Would like to thank the DPS Principal and management for giving us the chance to interact and share the thoughts.*
