Inspirational leadership is the ultimate leadership style. Inspirational leaders are value – driven leading from a deep sense of purpose and responsibility to create positive change. They have a clear understanding of what their values are and don't cave their pressure in situations where they'd need to sacrifice their values to achieve a result.

An inspirational leader is one who can motivate others by inspiring them to accomplish their goals and make them a better person. There are many inspirational leaders who have made a difference in different fields such as politics, science, art and sports.
