

DELHI PUBLIC SCHOOL, HYDERABAD

SHIKSHAK PARV 2022

“Education is the kindling of a flame, not the filling of a vessel.”

– Socrates

The Ministry of Education and the Government of India (GoI) celebrate Teacher's Day every year in the month of September which starts on the 5th of September as Teacher's Day. This year, according to the guidelines provided, students from grade XII at Delhi Public School, Hyderabad, were selected by the teachers to become teachers for the grade XI on Teacher's Day. Four students were selected per section of grade 12 to teach in the corresponding section of grade XI.

An orientation program on 'How to engage children to learn with joy' may be organized by some teachers for these senior students. Every selected student got one period to teach. Classroom engagements covered all curricular areas including arts, physical education, etc

The student teachers who received the best feedback from the children in the classrooms were given a certificate of recognition by the school. Feedback on the student's performance by the regular teachers were taken on the next day.

The event saw great camaraderie among the students as they got together to teach and learn together.
