

DELHI PUBLIC SCHOOL, HYDERABAD
Report on Field Trip - Std. III

Memories of school Educational trips are among the most prominent of the formative years, largely because they are a welcome break in the routine for both students and teachers. While their purpose is essentially to educate, they can also be a fun bonding experience for everyone involved. Going on an Educational trip means more than simply leaving the school grounds. Educational trips always have a major educational element, but the impact of Educational trips can extend much further.

The importance of Educational trips includes giving students the chance to build closer bonds with their classmates, experience new environments and enjoy a day away from the classroom. Getting away from the everyday atmosphere of the classroom gives students an opportunity to spend time with each other in a new environment. They may be able to connect

on more of a personal level without the structure of the normal school day. Students may be able to spend much of the Educational trip day in small groups, observing, chatting and learning about each other. Having an Educational trip in the early part of the term is wise, since it will allow students to bond with classmates they may not know very well.

Delhi Public school, Hyderabad, arranged a field trip for the students of class III on November 02, 2016 (Wednesday). The students were taken to Lumbini Park. The students boarded the bus at 8:30 a.m and reached their destination by 9:30 a.m. All the students were excited to explore the park. They were awestruck by the different types of trees and mesmerized by the beautiful flowers in the gardens. They enjoyed a lot and had a wonderful day.
